**Registration begins at 8:30 am.*

Breakfast and Lunch provided.

This course is limited to only 20 dentists.

Don't delay, make your reservation today at www.themetzcenter.com

Earn 6.5 CE hours.

Location: The Metz Center; 1271 E. Broad St., Columbus, Ohio 43205

This is your chance to study under the nation's leading sleep dentistry expert, Dr. James E. Metz!

“Do you have questions about HRPO? *Most dentists* I encounter have *many questions*, such as...”

What is High Resolution Pulse Oximetry?

What Pulse Ox should I use? WHY?

Who should I dispense to? WHY?

How does HRPO screening impact the effectiveness of Oral Appliance Therapy (OAT)?

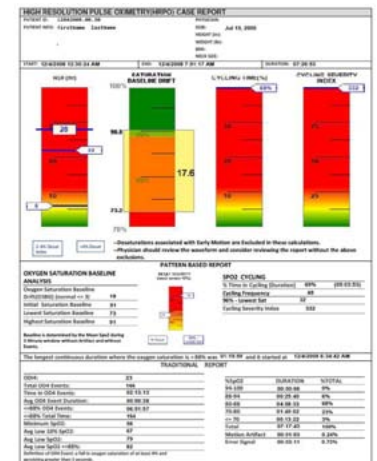

What analysis software should I use? WHY?

How do I use the analysis software?

How do I interpret these reports?

How can I use this as a tool to increase production in my practice?

All these questions and more will be answered at this single day course through step-by-step instruction and hands on analysis! Join me July 18th.

Register online! at www.themetzcenter.com or return the registration form printed on the back of this flyer.

Contact Angie @ metzdds@yahoo.com or 614-252-4444 for more information.

Thousands of dentists are missing an ideal opportunity to help their patients sleep better and live fuller, healthier lives, while adding an ideal revenue stream to their practices by properly using and fully understanding the benefits of the screenings provided by High Resolution Pulse Oximetry.

If you have questions about HRPO, you are not alone. As I travel throughout the nation, I find most doctors have many questions about this screening device. High Resolution Pulse Oximetry is a convenient, and non-invasive way to screen a patient's pulse rate and oxygen saturation levels. The information provided from this screening can assist you in evaluating a number of sleep related breathing disorders, including OSA, Hypoventilation Syndrome and Cheyne Stokes Respiration.

Join me for a single day on July 18th and leave with the confidence that you can use HRPO effectively and productively. This course is limited to just 20 dentists and will fill up quickly. No hype. Nothing to sell you - just an incredible learning experience.

These questions about using, managing and understanding High Resolution Pulse Oximetry will be answered at this course:

- What is High Resolution Pulse Oximetry?
- What Pulse Ox should I use? WHY?
- Who should I dispense to? WHY?
- How does HRPO screening impact the effectiveness of Oral Appliance Therapy (OAT)?
- When do I refer out? Who should I refer out to? Why?
- What analysis software should I use? WHY? How do I use it?
- How do I interpret these reports? What am I looking for?
- How can I use this as a tool to increase production in my practice?
- How does this work to positively increase marketing efforts in practice?
- What forms need to be in place when implementing the usage of HRPO?
- Should I charge the patient? What is the right fee? Why?
