## Why learn with us?

This is your chance to study under many of the nation's leading sleep medicine experts.

Dr. James Metz is a 1973 graduate of The Ohio State University College of Dentistry. Dr. Metz maintains a general dental practice in Columbus, Ohio, with an emphasis on dental sleep medicine. He is the affiliate director of The Ohio State University Medical Center Sleep Medicine Fellowship Program. He serves on the AADSM board of directors, course development committee, public relations committee and is the co-chair for the Introductory Course of Dental Sleep Medicine.

Dr. James Blank has been a dentist in private practice since 2005, focusing on comprehensive dentistry. His formal education includes Ohio State University College of Dentistry and a hospital residency at Medical University of Ohio. Dr. Blank has undergone special training in the area of TMD and Dental Sleep Medicine. Dr. Jim Blank works closely with Dr. James Metz in Columbus, Ohio, as an associate in the treatment of dental reconstructions, dental sleep medicine, and TMD.

## Featured Guest Speakers:

Dr. Steven Y. Park, MD is an author and surgeon. Dr. Park is board certified in otolaryngology, and is Clinical Assistant Professor of Otolaryngology – Head & Neck Surgery at the New York Medical College. He received his medical degree from Columbia University's College of Physicians & Surgeons.

Dr. Phillip LoSavio, MD, MS specializes in the field of ENT/Otolaryngology. Dr. LoSavio is trained to treat various disorders concerning speech, swallowing, upper-airway breathing, balance and hearing, among other functions. Dr. LoSavio is also trained to practice Head & Neck Surgery and Plastic Surgery.

Dr. Nelson Diers received his MSD and certification in Orthodontics from the Indiana University graduate school of Orthodontics. He is an associate clinical professor at Indiana University, in the graduate Orthodontics department. Dr. Diers participates in numerous study clubs, and the American Association of Dental Sleep Medicine.

Dr. Brian Vence maintains a private dental practice in West Dundee, Illinois, with a special interest in comprehensive esthetic and restorative dentistry. In 1992, Dr. Vence founded the Chicago Academy of Interdisciplinary Dentofacial Therapy, a study club designed to define and promote excellence in dentistry.

## Featured Guest Speaker

The Metz Center for Sleep Dentistry welcomes

### Dr. Steven Y. Park, MD

Dr. Steven Y. Park is an author and surgeon who helps people who are always sick or tired to once again reclaim their health and energy. For the past 10 years in private practice, he has helped thousands of men and women breathe better, sleep better, and live more fulfilling lives. His passion is to identify and empower people to overcome sleep-related breathing problems, which most people don't realize is the real reason for many of their common medical ailments.

Dr. Park's topics for this course are:

- **Sleep and Breathing:** The 2 Keys to Optimal Health. A discussion on why we have OSA and craniofacial origins.
- **My OSA treatment Philosophy and Algorithm:** A Comprehensive and Integrated Approach
- **Surgical Options for OSA:** What Sleep Dentists Need to Know

Dr. Park practices integrative medicine and surgery, with a firm belief that other models of health and disease can complement traditional, Western medicine. He is a published author of the book, *Sleep, Interrupted: A physician reveals the #1 reason why so many of us are sick and tired*. He firmly believes that one must treat the whole person first rather than focusing on one simple symptom or area of the body. Dr. Park provides office consultations at his Midtown Manhattan practice, as well as actively giving seminars, talks and lectures to numerous lay organizations and medical professionals.

To learn more about Dr. Park and view his published articles or podcasts visit: <http://doctorstevenpark.com/>

## Thousands die from Oral Cancer! Shouldn't we screen for Sleep Apnea, which kills Millions?

Dentists and their staff play a vital role in the team approach to screening and treatment of Obstructive Sleep Apnea - a condition that affects as many as 100 million Americans and their families. But fewer than 10 percent of the nation's dentists incorporate advanced sleep dentistry into their general practices.

Thousands of dentists are missing an ideal opportunity to help their patients sleep better and live fuller, healthier lives, while adding a significant revenue stream to their practices.

If you have been thinking about getting into dental sleep medicine, this two-day course for dentists and staff is the right choice. No hype. Nothing to sell you. Just an incredible learning experience presented by one of the nation's leading sleep dentistry practitioners, *Dr. James E. Metz, of The Metz Center for Advanced Sleep Dentistry.*

Our goal is to get you up & running the very next day.
